# Getting Started With AWS

Setting up my AWS account took 30 mins .

Getting started with AWS projects

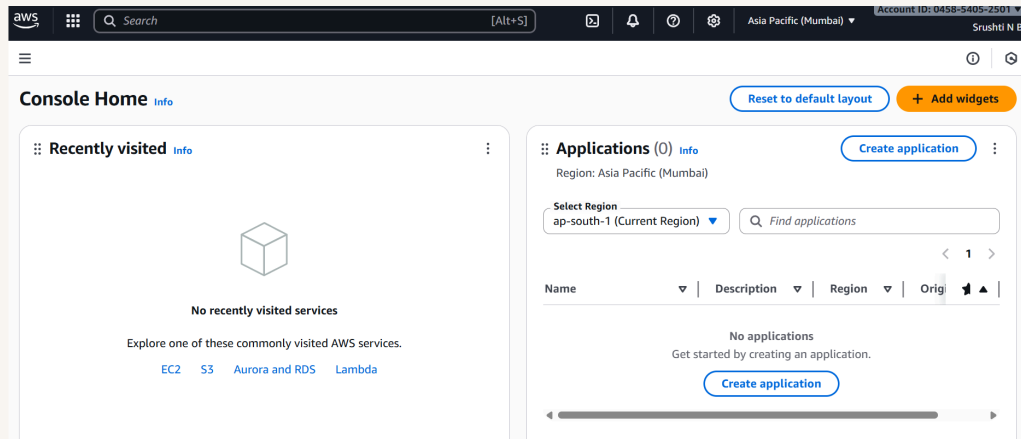

## AWS Free Tier

AWS allow users to try it for free by providing \$100 USD in AWS credit for 6 months after signing up or until credits runs out and we can get access to free storagae ,databases and more

New AWS customers can get started at no cost with the AWS Free Tier. Gain \$100 USD credits at sign-up and up to \$100 USD more to earn as you explore key AWS services

Beyond those first 12 months, the free tier benefits expire. After that period, if you continue using AWS services, you will be billed at the standard, pay-as-you-go rates for any resources you use.
